

Important Official Document Relative to Kansas Affairs.

WASHINGTON, Dec. 23.

The President, in response to the call of the Senate, to-day sent in a large mass of documents relative to Kansas affairs.

Among them are the following:—
DEPARTMENT OF STATE,
WASHINGTON, Dec. 11th, 1857.

James W. Denver, Secretary and Acting Governor of Kansas Territory:

Sir:—You have already been informed that Mr. Stanton has been removed from the office of Secretary of the Territory of Kansas, and that you have been appointed in his place. I desire now to state to you distinctly, the reason of this change.

The Convention which met at Leecompton on the 1st of September, had framed a Constitution, and had authorized its President to submit the question to the people on the 21st of December, who are to decide whether the Territory should be admitted without delay.

The importance of the issue could not well be questioned. It involved the complete and authoritative settlement of the only subject of difference which had seriously agitated Kansas or interfered with its prosperity. The qualified electors, therefore, to whom this settlement was referred, were unquestionably right to attend the polls and give their votes on the day appointed, they were required to do so by the highest considerations of public duty.

In the exercise of this right, moreover, they were entitled to an adequate protection by the Territorial Government, and the Acting Governor was bound to employ all the legal means at his command to give security and fairness to the election.

With the conflicting opinions which prevailed in the Territory on the question submitted, he had no right to interfere. They had their appropriate issue at the ballot box, and so that peaceful arbitrament they might safely be referred. The great objects to be accomplished, in the opinion of the President, were to preserve the peace of the Territory, and secure the freedom of election. Entertaining these views, he was surprised to learn that the Secretary and Acting Governor had on the 1st of December issued a proclamation for a special session of the Territorial Legislature on the 7th inst., only a few weeks in advance of the regular time of meeting, and only fourteen days before a decision was to be made on the question submitted by the Convention.

This course of Mr. Stanton, the President seriously believes has thrown a new element of discord among the excited people of Kansas, and it is difficult to see how it could be otherwise. It is a policy of the Administration. For this reason he has felt it his duty to remove him.

From these views you will readily understand what the President regards as the chief duty which devolves upon you as Mr. Stanton's successor. This duty is to preserve the peace of Kansas.

Every person entitled to a vote on the Constitution, should be free to exercise the polls and be free from any restraints whatever, in the exercise of the elective franchise. If the civil power is found insufficient for this purpose, the troops of the United States should be employed in aid of it, and it may be a wise precaution to have them stationed, in advance, within reach of those places where, in your judgment, their services are likely to be required. It is earnestly hoped that the use of military power may be wholly avoided. Violence is always less likely to occur when the means are known to be at hand for its prompt suppression. Should the military force become absolutely necessary, to keep the peace, you will find full instructions with reference to the proper mode of employing it in my communications to Governor Walker, of March 28, July 25, and Sept. 2, 1857, and in those subsequently written to Mr. Stanton. Of the last, of Nov. 30th was taken to Kansas by you, and you had a copy of it. All of them will doubtless be found in the archives of the Governor, at Leecompton; they refer prominently to the preservation of the peace at certain instants of election. But I need hardly inform you that your duty is not to be confined to these special occasions, it extends of course, to the protection of all the citizens in the exercise of their just rights, and applies to one legal election, as well as another. The Territorial Legislature doubtless convened on the 7th inst., and while it remains in session, its members are entitled to be secure and free in their deliberations. Its rightful action must also be respected. Should it authorize an election by the people for any purpose, this election should be held with interruption, no less than those authorized by the Convention. While the peace of the Territory is preserved, and the freedom of election secured, there need be no fear of disastrous consequences.

Some public journals contain reports of an intended movement, by a portion of the residents of Kansas, to organize a Revolutionary Government, under the Tappan Constitution. It is hardly possible that this report can be well founded, but should the attempt be made and succeed, it would be a serious obstacle to the peaceful progress of these elections, and would be a direct violation of the Constitution, and the laws of the United States.

The peaceful progress of these elections can obviously occasion no injury to any citizen of any party, because their results can have only their due weight under the Constitution and the laws. It is to be expected, therefore, that no good citizen will endeavor to interfere with the election, but that all the people will be contented to see the work of the Convention peacefully carried out to its legitimate results, and fairly presented to the consideration of Congress.

The President relies upon your firmness and discretion to give effect to these instructions. It is vitally important that the

people of Kansas, and none other than the people of Kansas, should have the full determination of the question now before them for decision. It is important, also, that in securing to them the protection to which they are entitled, great care should be taken not to organize any illegal authority. On this point I again refer you to my instructions to Governor Walker and Secretary Stanton, which you will regard as directed to yourself. It is proper to add that no action of the Territorial Legislature, about to meet, can interfere with the decision of the 21st of December, and the 26th of January in the mode and manner prescribed by the Constitutional Convention.

I am, sir, respectfully, your obedient servant
LEWIS CASS.

These documents also contain General Cass' reply to Governor Walker, dated Dec. 18, 1857.

Sir:—On Wednesday last I received your communication of the 15th inst., tendering your resignation as Governor of Kansas. This resignation is accompanied by a long argument on the affairs of the Territory generally, to which, you are well aware it would be improper for the Department to reply. If every officer of the government who feels himself constrained to refuse obedience to the instructions of the President shall pursue this unusual course, and thus place on the files of the appropriate Department criticisms, on the policy of Administration, no person known better than yourself, could what consequences this might lead. The Department must either cause the charges and arguments against the President to be filed among the public archives of the country without contradiction or reply, or it must spend the time which ought to be devoted to the public service in controversies with subordinate officers who may disapprove the President's policy. While duty, therefore, forbids me to enter into a controversial discussion with you upon the various topics embraced by your argument, it is proper I should make a remark upon a single point. You state the President has changed his policy in regard to Kansas. And why this allegation?—Simply because the Convention of Kansas have in the exercise of the rights belonging to them, decided that they would not submit the whole Constitution to the people, although they had submitted the all-important and dangerous question of slavery, which threatened to convulse the Union, and was alone prominent in the minds of the people throughout every State, he had treated the submission of this momentous question as a mere nullity.

Under these circumstances it was his imperative duty, and this was in strict conformity with the previous instructions, to take care that a fair election be held on the vital question, and thus give peace in the Union. Had he acted in any other manner, merely because he preferred the submission of the Constitution originally to the people, his responsibility would have been of the gravest character. He never intimated or expressed the opinion that the Convention were bound to submit any portion of the Constitution to the people, except the question of slavery, much less that that portion would be invalid without such submission. Had he entertained such an opinion, this would have been in opposition to the numerous precedents which have occurred since the adoption of the Federal Constitution by the different States. The question of slavery was the one all-branching question, and you were sent to Kansas with the full confidence of the President to carry out the principles of the Kansas-Nebraska act. With the question whether Kansas was to be a free or slave State, you were not to interfere. You were to secure to the people of Kansas a free and fair election to decide the question for themselves. The President was therefore happy to learn from your dispatches to this Department, of July 15th last, that in all your speeches you had refrained from expressing any opinion as to whether it should be a slave or free State.

I am instructed to inform you that your resignation of the office of Governor of the Territory of Kansas has been accepted.

I am, sir, your obedient servant,
LEWIS CASS.

R. J. WALKER, Esq., Washington.

SUICIDE OF AN EDITOR.—A correspondent of the Philadelphia Ledger, writing from Fayetteville, North Carolina, states that Mr. F. Whitman, an editor of the Fayetteville North Carolina, committed suicide on the night of the 10th inst., in company with a Mr. Elliot. The letter says:

He and his friend Mr. Elliot were both found dead, side by side, in bed this morning, they having both committed the same act at the same time. Some prussic acid and a letter signed by the editor lay on the table by the bedside. The letter exonerated any one from being the cause of this rash act, and stated that he and his friend had concluded to leave this world, and agreed to leave together.

Dyspepsia, in all its various forms of enervated humanity, resulting often from small causes like indigestion, producing Constipation, Flatulency, Nausea in the Stomach, and a thousand other ailments tending to prostrate or debilitate the physical man; any and all of these ills yield like magic to Dr. Hostetter's celebrated Stomach Bitters, giving it the reputation it bears of reinstating the vitality and strengthening influence upon their almost despairing and broken constitution. All should use these Bitters during this warm weather; as it is the most effectual preventive of diseases known. For sale everywhere.

Dec. 24—41.

Dr. Crume and Fouts

Have entered into a partnership in the practice of Medicine, Surgery and Midwifery, in the town and vicinity of Fayetteville, and are promptly to all business offered in the line of their profession. Office in the late Dr. Strick's office. Persons indebted to said Dr. Crume will please call on him and settle.

December 21st, 1857—31.

Wood's Hair Restorative.—We have never known any other medicine win so large a share of public confidence in so short a time as this has done. It is so short a time as this has done. It is so short a time as this has done.

DR. MORSE'S INDIAN ROOT PILLS.

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in exploring the interior of Asia, and Africa as well as North America. He has spent three years among the Indians of our Western country. It was in this way that he discovered the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in harmony with the different functions of the body, the blood becomes impure, becomes thick, corrupted and diseased, thus causing all pain, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become clogged and cease to act, and thus our light of life will be forever blighted. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow in the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a plant which engorges the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within the system, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it. The third is a Diuretic, which gives ease and enables the system to throw off the impurities, they draw large amounts of impurity from the blood, which is then thrown out through the pores of the skin, and the result is a purer blood, and thus, in a soothing manner, restores the system from the lungs by expelling it.
